

2018 STEM for All Video Showcase

May 14th-21st

Register to present at the 2018 STEM for All Video Showcase

at: <http://stemforall2018.videohall.com>

This year's theme: Transforming the Educational Landscape

Presenter Registration ends Feb 15th, or earlier, if we receive 250 registrations!

The Stem for All Video Showcase is an online, interactive, week-long event that will take place May 14th-21st 2018. It will feature approximately 200 innovative, NSF funded projects that are transforming the STEM educational landscape. Presenters will share a three-minute video of their project and will discuss it with researchers, practitioners, policy makers, and the public at large. We anticipate that over 20,000 visitors from over 150 countries will view the videos, vote for their favorites, and read or participate in the discussions. Don't miss this opportunity to exchange ideas with colleagues, learn about related work in the field, and disseminate your project broadly. Register Today!

IMPORTANT DATES

- Register to be a presenter by February 15th
- Submit a 3 minute video by April 25th
- Participate in the interactive event May 14th - 21st

To Register and to learn more go to: <http://stemforall2018.videohall.com>
