On Thursday, September 28, Ma'ayanot's STEAM team welcomed Dr. Ari Ginsberg, Professor of Entrepreneurship and Management at NYU's Stern School of Business and Academic Director of the Management of Technology Master of Science Program at NYU's Tandon School of Engineering. Dr. Ginsberg teaches courses on business strategy analysis, new enterprise development, corporate venturing and innovation and technology entrepreneurship. He will utilize his extensive knowledge and experience to serve as a consultant in the development of Ma'ayanot's new comprehensive entrepreneurship module, part of the cutting-edge sophomore engineering curriculum. The Ma'ayanot STEAM teachers are excited to build on the relationship established with NYU during their attendance at the ITEST Robotics and Entrepreneurship summer program at the New York University

Tandon School of Engineering and they look forward to collaborating with Dr. Ginsberg to continue the growth of their STEAM program and Makerspace.
