

2023 CADRE Fellows Program

January - July 2023 | Virtual

Applications due October 24, 2022

Program Highlights

- ✓ Discuss career pathways, dissemination, community building, and research funding in a series of interactive webinars
- ✓ Network with experienced scholars and build community with early career researchers from across the U.S.
- ✓ Meet NSF program directors and participate in a mock proposal review
- ✓ Advance a career-development project
- ✓ Attend the 2023 DRK-12 PI Meeting

Who Should Apply?

Doctoral students, postdocs, and similar early career professionals who are advancing the field of preK-12 STEM education toward diversity, inclusion, equity, and justice.

"Beyond the context of the fellowship activities, I received feedback from Fellows on cover letters, two Fellows spoke at webinars I organize with other graduate students at ASU, and I now meet monthly with a group of PhD students and postdocs I met at the DRK-12 PI Meeting. I feel all the Fellows are generous with their time and expertise."

Amanda Riske, 2021 Fellow

"Being a CADRE Fellow connected me with researchers who I may have not met in other professional situations. While I have gained knowledge and skills in developing my career in STEM education research, I have also expanded my community to include more meaningful relationships that support my growth."

Amanda LaTasha Armstrong, 2021 Fellow
